Oct 2023 – Dec 2023

*Introduction to Web Development*

*Remote*

A programme that teaches HTML, CSS and JavaScript from the basics.

### Learnable Internship with Genesys Tech Hub

Dec 2023 – June 2024

*Frontend Development*

*Remote*

In-depth teaching on advanced HTML, CSS, JavaScript, and frontend frameworks (React.js).

### Learnable Internship with Genesys Tech Hub

Dec 2024 – May 2025

*Backend Development*

*Remote*

In-depth teaching on advanced HTML, CSS, JavaScript, and frontend frameworks (React.js).

## Projects

### **Menstrual Cycle Tracker** (on-going...)

#### **Note Taking API with Auth | Node.js, Express.js, TypeScript, MongoDB**

[GitHub](#)

This is a simple note-taking API built with Node.js, Express.js, TypeScript, and MongoDB Atlas.

This API allows you to perform CRUD operations such as create, read, update, and delete notes.

Users can register, log in, create, read, update, and delete notes. Notes are directly associated with specific users and categories.

#### **Credit Card Number Validator | Node.js**

[GitHub](#)

This program validates credit card numbers for various types of credit cards. It is implemented on the command line (CL), where users are prompted to enter a credit card number or press "o" to exit the program.

#### **Easy Design UK | React.js, CSS, Bootstrap, Express.js, Node.js**

[GitHub](#)

Easy Design UK is a platform that offers innovative web development and digital solutions.

I built the frontend with ReactJS, Express and Bootstrap majorly.

#### **Movie Search App | React.js, CSS, API**

[GitHub](#)

This simple web app simply fetches movies via API (TMDB). It has no in-built media player.

Users are directed to YouTube to stream movies. I built this with React and custom CSS.

#### **Whisper Application | HTML, CSS, JavaScript, MongoDB, Node.js, Express.js**

[GitHub](#)

An application of community of users, which keeps them anonymous, while texting.

Developed by group of Interns. I contributed to the HTML section, which gives

users great user experience with awesome UI.

### **Weather App | HTML, CSS JavaScript**

[GitHub](#)

A simple static weather application that displays the weather conditions of selected cities.

No APIs were used.

### **To-Do App | HTML, CSS, JavaScript**

[GitHub](#)

A simple to-do application that renders and displays user inputs as tasks, saves the tasks, and can delete tasks if necessary.

### **Referee**

Available on demand
